LED Walkway Lights with Optional Glare Shield Now Available

WORCESTER, MA, May 2018—Further expanding the available options for LED walkway lights, Access Fixtures now offers optional 180-degree glare shields for many of its LED bollard lights. These glare shields are designed specifically to help control the emitted light from your LED walkway lights. These shields come factory-installed and can be ordered online with the bollard lights at AccessFixtures.com.

Shop LUVO 15w RDT Bollard Lights

Shop CONA 15w RFT Bollard Lights

With new glare shields available for the round versions of LUVO, CONA, and TEFA product families, customers—whether working on commercial, industrial, or residential projects—will be able to take advantage of this option. Many projects require the limitation of light trespass into buildings and onto neighboring properties; 180-degree bollard light shields make this easier than ever. LED walkway lights with 180-degree shields are well-equipped to prevent

STANDARD SPECIFICATIONS

HOUSING
The modern design is a one piece housing assembly with the diffuser held in place by formed rails. The assembly consists of formed, cold rolled steel parts that welded and fastened with hardware. Two decorative solid steel diffuser panels complete the look. This fixture is not recommended for installation along coastal areas. Contact factory for further details.

DIFFUSER
A simple white UV stabilized acrylic panel provides an understated elegance to this sleek design.

ENERGY SAVING 175LM/W LED Parking Lot Light

This is our latest parking light

7 YEAR
WARRANTY

Overview

Our patent LED parking lot Light with aviation aluminum alloy disposable die forming, low-profile design minimizes wind load requirements and constructed with high efficient streamline heat sink, insure reliable 100,000 hours LED lifespan. They deliver exceptional illumination performance by using Latest Philips 5050 Technology, the efficacy up to 175lm/w. Compared to traditional Metal Halide lamp, energy saving over 90% can be achieved.

The fixture can be mounted with adjustable slip fitter/trunnion, wall mounts options. Their solid sate construction renders them impervious to shock, vibration, frequent switching and environmental extremes.

Application:

Widely used in high pole parking lot lighting, car dealership lighting, roadways, pathways, square, stadiums, amusement and residential area, yard, industrial area, ect.

light from shining in through building windows, cars, or into the eyes of passerby.

The factory-installed 180-degree glare shield will match the color of the bollard housing.

Easy Customization Options for LED Walkway Lights

Available in 11, 15, 16, and 20-watt models with designs featuring cone reflectors, louvers, and Type 5 borosilicate glass refractors, these glare shields are colored to match the housings of the bollard lights. The 17, 18 and 36-watt turtle and wildlife-friendly models can also be fitted with the 180-degree shields.

STANDARD SPECIFICATIONS

HOUSING

The modern design is a one piece housing assembly with the diffuser held in place by formed rails. The assembly consists of formed, cold rolled steel parts that welded and fastened with hardware. Two decorative solid steel diffuser panels complete the look. This fixture is not recommended for installation along coastal areas. Contact factory for further details.

DIFFUSER

A simple white UV stabilized acrylic panel provides an understated elegance to this sleek design.
