Dear Mr. Kershner:

The Delaware County Regional Sewer District (the "County") has considered your request for approval to discharge sanitary sewage into the Delaware County Sanitary Sewer System from the above referenced location, representing 90 Equivalent Residential Unit(s) (ERU).

Capacity is conditionally available to serve the proposed project provided that the Vinmar pump station is functioning at design capacity.

Extensions from the existing Vinmar pump station to the south, including acquiring sanitary easements, will be necessary to provide service to the proposed lots.

The current assessment of capacity availability is subject to periodic reevaluation by the County and shall not be valid after 18 months from the date of this letter.

If you have any questions, please feel free to contact me.

Sincerely,

A handwritten signature in cursive script that reads "Kelly Thiel".
